HOW TO GET HER TO SEND YOU DIRTY PICS

The ultimate. You win. Getting a dirty pic does so much more than just let you look at her naked body. If you're not a guy who ever asks for dirty pics, you're doing yourself a huge disservice.

When you get her to send you a dirty pic, it means:

1. She is definitely down to fuck
2. She feels comfortable with you
3. She likes you
4. She finds you attractive

This is the desired result of the plant and fertilize method and tells you it's time to go to the third step and smash. If you're one of those guys who feels that it's hard to make the move in person, getting a dirty pic from her will make that transition all the easier. It's your green light to invite her over for sex.

So with all the good that it can do for you, how in the world do you get a woman to send you a picture of the most intimate thing she has?

Easy. Plant, fertilize and smash.

The first thing you need to do is plant the seed. There are a few ways to do this, but it starts with flirting. Flirting is the vessel that you'll use to move from the very first sexual innuendos to her sending you a dirty pic.

A woman will only send you a dirty pic when she knows you're okay with her body. She doesn't want to send a picture to someone who will criticize her. That is a woman's ultimate fear. So you need to make her know you think she's sexy.

DIRTY PICS

Because a dirty pic usually includes some or all of her body, you need to make her aware throughout the time you're flirting with her that you like every single one of her body parts. From her sexy legs, to her plump lips, to her almond eyes, to her supple breasts. And if you need to lie a bit, then you lie. This isn't about critiquing, this is about getting laid. The more she knows or thinks you like every one of her body parts, the better she'll feel about exposing herself to you.

When you make a woman feel sexy, she will want to send you dirty pics. I get unrequested pics from girls all the time just to show me what they have, especially when they've been working out. They want a man's approval that they look good. And the man who gets the dirty pictures is the one she feels most comfortable with, the one who has flirted with her the most and is very clear that he likes her body and wants her.

Here are examples of texts you can send to set up a request for a dirty pic:

"I wanna see more."

"I bet you look so good right now."

"I can tell you've been working out, you've been looking really good."

"Damn, I wanna see."

Followed by:

"Send me a pic of you."

There are certain times you want to set up these dirty-pic requests so you have the best chance of getting one. Asking her for a picture at an inopportune time can break the spell. Next time you ask for one, she'll already be conditioned to say "no" because you already blew it once before. It can be awkward asking again, and many men just leave it alone, but you must continue on course if you

want to be successful and get laid.

The Best Time To Ask For Dirty Pics

When you know she just went to the gym. This is the time when a woman's body looks the best. She got her pump on at the gym and her muscles are more pronounced now than they are at any other time. She goes home and probably takes pics of herself in the mirror just to see what she looks like or to keep a record of her progress. She probably already has pics of herself stored on her phone, so all she has to do is press the "send" button. Remember, any selfie she's posted on social media is just the G-rated version of the one she's saved. ;)

At night, when she's relaxed. She's in her pajamas in bed, all cozied up, so she feels very comfortable. This is a good time to ask for a picture for a few reasons. First, she has the craziness of the day behind her and she can concentrate on herself. Girls usually masturbate during these times, so with any luck you'll catch her when she's in heat and ready to show you her goods. We all know how being horny affects our judgment, and what you would never do in a million years during regular hours, seems more doable when you're horny. Here's the set-up:

You: What are you doing?

Her: Just in bed relaxing

You: Are you in your pj's?

Her: Yeah.

You: I bet you look good in them, especially since you've been hitting the gym lately. I wanna see you in them.

The weekend. The weekend is one of the best times to ask for a dirty picture because the craziness of the week is behind her and she's more relaxed. Even if she's at home in bed on a weekday night, she might have had a stressful day

and all she wants to do is sleep, so you asking her for a dirty pic might make her mad. During the weekend, people's stress levels are usually a lot lower. And if they drink, that makes them more relaxed.

After a night out drinking. This will be the best time you will ever have of getting a dirty pic. Time it wisely, gentlemen. I don't need to tell you how drinking lowers inhibitions. Remember all those dumb things you wish you hadn't done while drunk? There you go. A woman is more likely to send you a dirty pic when she's got a buzz-on at home after clubbing, more than at any other time.

Let me preface this by saying that if she's out on the weekend drinking, you should be with her! Don't give her the chance to get drunk and meet another guy. If, however, you and she aren't together that night, text her at 1:30 and ask her what she's doing. If you get a recorded message that says she's out, don't respond. Wait another hour because she'll likely to be home by then. Then text her.

You: How was it?

Her: Good. I got so drunk.

You: You in bed?

Her: Yeah.

You: I bet you looked good tonight. You should send me a pic. I wanna see what I missed out on.

Getting her to send dirty pics at night can be the catalyst for a "you should come over" text. This is a sure-fire way to smash. She's already horny because she just sent you a picture of herself, and she's all alone. Take advantage of this opportunity.

“Pic Me” Method

The method I like to use is very blunt and to the point. I don't have a lot of time to spend, so I start out with:

Me: Pic me.

Her: Of what?

Me: I wanna see your body, you decide which part.

This may not be the route that's best for everyone, but I don't like to waste time. I set up my relationships with women so they know I'm demanding and blunt. If you can get a woman used to you being that way, then this method will be easy for you and will cut out a lot of the extra work. If, however, you have taken a different approach, then she might be weirded out because you're all of a sudden being blunt and demanding.

USE HER DIRTY PICS TO FLIRT WITH HER

So she sent you the pic. Great. Now's the time to start building on this big step she just took with you. Don't act like it didn't happen. This is the worst mistake you can make. If you don't talk about it any more, she'll feel like there was something wrong with it, so don't be shy. You need to utilize the picture so that it keeps helping you get to your end goal. If you make her feel uncomfortable about having sent it, especially if she was drunk and now regrets it, she'll never send you another, and you've just lost your best chance of getting laid. You need to reinforce the notion constantly about how good she looked in that picture so that she sends you more.

How Do You Do That?

By bringing up how good she looked in the picture. Examples:

"I just looked at your picture again, you look so fucking good."

"Your body is on point in that picture, sexy as hell."

"You looked so good in that pic, I want to see that body in person. Let's make it happen."

Even if she didn't send you a nude, that's okay. For instance, if she only sent you a picture of her wearing a tight T-shirt, that's okay. Consider it a positive first step. The seed has been planted that it's okay to send you pictures of herself. Begin to fertilize the seed you've planted, and little by little she will take off more and more clothes as she becomes more and more comfortable. You'll eventually get a full-frontal nude picture, which is what you're after. A woman baring her entire body for your approval is more psychological than you can imagine. When you get that nude picture from her it's analogous to her baring her entire soul to you. It's saying "I'm here, ready, come take me."

GETTING HER TO SEND YOU

DIRTY PICS

Dirty pictures now mean a lot more than you initially thought they did, don't they? ;) Receiving dirty pics is the strongest signal that you're definitely on-course for the smash stage. It should be extremely gratifying to know that you've followed the plant, fertilize and smash method to a "T," and now is when you'll begin to reap the rewards for all your hard work and dedication.
