

# 8 TEXTS FOR INSTANT SEX

Have you ever looked at her text and wondered, “I want her to want to fuck me but what do I text”?

How many times have messed up your one and only chance at getting laid because you didn’t know what to text, or because the text you DID send scared her off and you have no idea why? It’s happened to you, it’s happened to me, it’s happened to everyone.

You have a very short window of opportunity to win a girl over and make her want you. Miss that window and you’re done for; throw in the white towel because she will move on to the next guy faster than it takes for you to look at your phone (which you will inevitably do dozens of times waiting for her text that will never come).

Luckily for you, you're about to learn 8 Fail proof texts to send that make her want to have sex with you.

Let us start with a hypothetical situation: Imagine you are standing in a white room that is completely empty. There are

no windows, no chairs and no tables. You have no cell phone and your pockets empty. There is absolutely nothing at all happening around you and dead silence fills the room.

Next

In walks the most beautiful bikini clad super model you've ever seen in your life.

Body toned to perfection, skin bronzed and glowing, hair long, black, and without a strand out of place with a shine that you've only see in commercials, lips

full and plump, eyelashes batting at you from green almond shaped eyes. She is staring Straight...At.....You while you both stand face-to-face.

Get the point?

NOW

What would you say to spark the conversation?

There are no outside occurrences to talk or comment about, no weather to mention, no trees or breeze to elude to, nothing funny happening. It's just YOU and HER facing each other in dead silence.

What do you talk to her about? What do you say to spark a conversation? What do you say to get her to have sex with you?

This is what text messaging is. You and the girl you are texting with are in a virtual white room with

nothing to comment on other than what your minds can come up with. Since you can't make her visually see anything, you will have to mentally paint a picture in her head with your words.

How good are you at this? If you're reading this then you are probably somewhere between horrendous to average at best. Luckily for you I am an expert and can help.

While you are probably scared shitless of being in this situation, a Text god THRIVES in this environment because nothing- no story, no question, no joke, no innuendo, no irritation is off the table.

There is nothing stopping you from making

her laugh, making her inquisitive, making her sexually attracted to you, making her want to tear your clothes off and fuck you.

I'll impart some of the wisdom I've acquired throughout the years to help you survive in this wilderness of texting.

Maybe you've been texting for a long time, maybe you've only begun to experiment with it. Maybe you know you suck at texting and maybe, just maybe, you think you're bad ass at it.

Either way, I want to help you get your hand off your phone and get her hand on your cock.

These 8 texts cover the full spectrum of texting. Some are very aggressive yet smart and direct and others are softer and more playful. ALL of them elude to sex and all of them WILL get you laid when done correctly.

Here we go-

# **#1. The fact that your mental attraction is as strong as your physical attraction makes me want you in both ways.**

When to send this-

I send this text after I've done two things. First, I make sure I've made her aware of the fact that I'm physically attracted to her body. I do this is by following what is called "Pre-sex irt texting" (There is an entire chapter dedicated to this in Text God).

Second, I make sure I have challenged her intelligence in a good, playful

way by finding out how much she knows or how smart she is.

Once these two things have been accomplished, I then send this text in order to combine the physical and mental, making it obvious that I want her both ways.

### **What to expect:**

Expect a girl to be genuinely impressed by this text and to text you back a heartfelt answer. No guy has ever sent her a text this intelligent so be prepared to use her response to go in for the kill and invite her out or invite her over.

When I send this to a girl it elevates her view of me from just another douche bag who wants to lay her, to an intelligent guy who recognizes and appreciates both her

intelligence and her physical attributes. This is one of those texts that get a girl to say “Awwww that was so nice”. Even if you don’t think she’s smart at all and are just trying to get laid, don’t forget that Perception is everything.

## **2. What’s the craziest thing you’ve ever done in bed?**

I use this text when I’ve either already hooked up with a girl or have flirted with her to the point where she knows we are definitely going to fuck in the near future.

The response:

No matter what she says, you always respond with “Meh, Let’s beat that”

First, this shows her you are not impressed and true bad asses are never impressed when they know they can do better. It sparks the thought of, “Wow, if he’s not impressed by my craziest sex story, I wonder what secret he knows that is better than my best”. When a women tells you what the craziest thing she’s done in bed, realize that she is putting herself out there and literally asking you to come take her and show her an amazing time. She is being completely honest with you about one of the most private things about herself. Getting a girl to respond to this text means a two things, first that she is comfortable with you, second that she likes you, and most importantly that she wants to fuck you.

### **What to expect:**

Expect a girl to want you to deliver to that promise. You’d better be ready to be a stud in bed. If you’re not ready for that challenge

then throw in the towel and become celibate because this girl is literally ASKING you to blow her mind in bed.

### **3. What's one thing you've always wanted to do but have always held back from doing?**

I send This text when I want a girl to break out of her shell. You should be able to tell when a girl is holding back and not given you the real her. This will help you get her to step out of that bubble she's in. When you nally get her to break out of her shell , she will become excited because she doesn't know where this will lead to and because she nally isn't getting

the same boring conversation she gets from all the other lame guys.

### **What to expect:**

Expect this to get her to start thinking about things she's always wanted to do. Goals yet unattained, dreams and adventures not yet had. The fact that she is thinking about her dreams and you in the same instance and that you are the source of those good thoughts will immediately put you in a positive position with her and make you something she wants more of.

When I send this text, I like to have fun with it. Anything she responds with, whether it be, "I've always wanted to sky dive", or "I've always wanted to visit this museum", or anything else, I will respond with, "Well guess what we're doing next week"....

You've literally just gotten her to give you the best idea for a date. Congratulations you are that much closer to getting laid.

## 4. Are you a betting person?

This is a fun one because its playful but opens the door to a variety of responses you can give which can steer the conversation anywhere you want it to go. It also

gives you insight as to what kind of person she is and what she identifies in her mind as 'pushing the limits'.

If she responds with "Yes" to your text. Reply with "Perfect. Let's play a game. If the craziest thing you've done is better than the craziest thing I've done, I'll give you \$100. You first"

I have gotten responses like:

“I just realized I haven’t really done anything really crazy in my life.” “You’re de nitely crazier than I am”  
“Trust me I will win”

Either way, what ever her response is, use it for your gain.

You can challenge her and say

“Really, that’s it? We need to do something more fun that”

“Damn, that’s very adventurous, I can only imagine what you’re like in bed” “Let’s beat that”

### **What to expect:**

Expect her to give you an opening to invite her somewhere fun with you. The old saying “Girls just

wanna have fun” is true. If a girl sees you as being fun and exciting to be around, well then you’ve already won half the battle.

## **5. Guess where you’re going Tuesday...**

I use this text to get a girl to go out with me. ASKING a girl out is for guys who don’t like getting laid and like getting told “No”. TELLING a girl where she is going will yield far better results. The trick here is that as soon as she says “Where?” She is subconsciously agreeing to go out with you but just doesn’t know where because you haven’t told her yet.

When you send this text and get a, “Where” response, you become the source of intrigue and of information. Women like Men who take the lead. You never see Leonardo DiCaprio ask a girl if she’s ok

with having a salad, he just takes her to dinner and she goes with him. When you tell her you've already set up a date

for her, it translates into the fact that you take the initiative which is what women like. When you have to ask a girl where she wants to go on any particular day, it

makes you seem indecisive by looking for her to tell you where she wants to go. Don't do this.

### **What to expect:**

Expect her to say "Where?". Be ready to give her an answer and make it GOOD. Don't meet her intrigue with somewhere lame, make it fun. Remember, being fun is half the battle.

I personally like to reply with, “Over to my place for dinner and wine tomorrow” The reason I like this is because that’s the easiest place to get laid. Why would I go somewhere where there’s no bed in immediate sight?

**6. Sounds like you’re trying to make me your sex slave...I usually charge for that but I’ll give you a free 30 day trial.**

I use this whenever a girl asks me to do something for her. It’s a playful way to give her the option of saying yes. If she says “Ok” or anything to that effect, it means she’s down for sex obviously, but it also does more than that; it brings

up sex in a playful manner without being so forward or direct. A girl will only fuck you when she feels comfortable with you. Being able to bring up sex comfortably and in an carefree way will make you seem suave even though you may not be at all. The easier it is for her to talk about sex with you the easier it will be for her to say yes. Sex is one of the hardest subject to talk about, even though it's on everyones mind all the time. Guys especially have a very hard way of vocalizing sex without sounding like a creep.

Because I'm so nonchalant about sex and it comes so often for me, I can talk about it to girls in a carefree way. Because I have a lot of sex it makes me

comfortable enough to bring up sex in a playful manner as if it's no big deal. Sex should be fun and

women want to have fun so what are you waiting for?

Bringing up Fun and sex is a dynamite combination that when used right will get her in bed faster than you can take your pants off.

## **7. hmm..I was thinking about having sex with you but now I'm not sure..**

I like using this when a girl says something that makes herself look dumb or makes an error. It takes a bad ass to send this text message and most men including yourself wouldn't normally send this and that's exactly why most men don't get laid unless you consider jacking off to a soulless computer screen as getting laid. This text creates what is called a give and take. First you give her the

knowledge that you WERE going to have sex with her (Give) but now you're not sure (take away). No one likes things to be taken away from them even if it's the promise of something in the future.

### **What to expect:**

Expect her to say something like "lol oh and why is that" Then, respond by telling her the mistake she made and say something like "It's ok, I think we can get past this and still make it happen"

This is another playful way to bring up sex and give her the validation girls are looking for that yes I will have sex with you. You get the "Will he or won't he" question in her mind out of the way. I always make girls I'm trying to fuck, aware of the fact that I would have sex with them. It makes them know you're not just looking for a friendship but instead are looking for more.

Have some fun with it. The more you send this text the better you'll get at being comfortable with sending it and the better you get responding to her response.

## 8. I want you

Sounds simple but always remember, you can say so much with so little.

You don't have to write paragraphs about how you want a girl, just tell her "I want you".

I use this text all the time because I like to get straight to the point and you should too. Trust me, you'll save yourself a lot of time this way. Most men try to be really elegant or beat around the bush when they try to tell a girl they want them and do it so poorly that either the girl can't tell that you want her or you seem lame and disingenuous when you

do finally tell her. Keep it simple stupid, less is more in this case.

When to send this

Send this text after you've irted with her and now you want to get to the next level.

### **What to expect:**

Expect a girl to say something as straight forward as what you sent her.

I love when I get this as a response

“Well then come get it”

This means game over, you're about to get laid.

If she says anything that doesn't hint towards you having sex, you haven't irted enough but at least now she knows you want her and you can stop

worrying about if she knows that you want her or not.

I can't tell you how many times this simple text has gotten me laid. Go and do likewise gentlemen.
